

# Smoke and Fire

Sabrina Carpenter

Oh, oh  
Our love  
Was running into a burning building  
Oh, oh  
Our love  
Scattered ash with a burnt up feeling  
Feel the heat, so we started running  
You know you saw it coming  
But the memories are still in my mind  
Burning like smoke and fire Rumors spread like wildfire  
I held a strong ground  
But I've been burning down  
'Cause it's like fire is all I hear about  
And we are fading out  
Don't wanna turn out the light  
But it's like  
I'm no firefighter  
I just need to breathe tonight  
So sound the alarm  
And there goes the night Oh, oh  
Our love  
Was running into a burning building  
Oh, oh  
Our love  
Scattered ash with a burnt up feeling  
Feel the heat, so we started running  
You know you saw it coming  
But the memories are still in my mind  
Burning like smoke and fire  
Secrets in a small town  
They always get around  
But the flame has been put out  
And I am hearing all this small talk  
They whisper as I walk  
In a house that's boarded up  
So good luck I'm no firefighter  
I just need to breathe tonight  
So sound the alarm  
And there goes the night Oh, oh  
Our love  
Was running into a burning building  
Oh, oh

Our love  
Scattered ash with a burnt up feeling  
Feel the heat, so we started running  
You know you saw it coming  
But the memories are still in my mind  
Burning like smoke and fireSmoke and fire  
Smoke and fire  
Don't you know that  
If there's smoke there's fire  
Smoke there's fire  
Smoke there's fire  
No, noOh, oh  
And now it's over  
Oh, oh  
I'm getting colder  
Oh, oh  
And it's the feeling  
Of running into a burning buildingRumors spread like wildfire  
I held a strong ground  
But I've been burning downRunning into a burning building  
Oh, oh  
Our love  
Scattered ash with a burnt up feeling  
Feel the heat, so we started running  
You know you saw it coming  
But the memories are still in my mind  
Burning like smoke and fire, noSmoke there's fire  
Smoke there's fire  
Smoke there's fire  
No, no  
Oh, oh  
And now it's over  
Oh, oh  
I'm getting colder  
I'm so tired  
Burning like smoke and fire
