

# Alligator

Grizzly Bear, Zach Condon, Dave Longstreth & Amber  
Coffman

It's a fear. It is near. The shape becomes ever clear.  
It bares teeth extra sharp that'll cut you in the heart.  
It attacks really quick, try and fight it with a stick.  
There's no use, give it up, this is life and this is love. You are my alligator.  
You are my alligator
