

# Sitting On The Moon

## Enigma

I am sitting on the moon,  
Watching planet blue, hello.  
Looking all around,  
Rotating without sound,  
Where are you?Where are you?  
I am sitting on the moon.  
Where are you?  
I am missing... I am missing you.  
I came from very far,  
A little unknown star, hello.  
I don't know what to do,  
It is so cold and blue, without you.  
Where are you?Where... where are you?  
I am sitting on the moon.  
Where are you?  
I am missing... I am missing you.Where are you?  
I am sitting on the moon.  
Where... where are you?  
I am missing... I am missing you.  
Where are you?  
I am sitting on the moon.  
Where are you?  
I am missing... I am missing you.
