

Sitting On The Moon

Enigma

I am sitting on the moon,
Watching planet blue, hello.
Looking all around,
Rotating without sound,
Where are you?Where are you?
I am sitting on the moon.
Where are you?
I am missing... I am missing you.
I came from very far,
A little unknown star, hello.
I don't know what to do,
It is so cold and blue, without you.
Where are you?Where... where are you?
I am sitting on the moon.
Where are you?
I am missing... I am missing you.Where are you?
I am sitting on the moon.
Where... where are you?
I am missing... I am missing you.
Where are you?
I am sitting on the moon.
Where are you?
I am missing... I am missing you.
