

Hold Tight (feat. Uhmeer)

Sabrina Carpenter

[Verse 1: Sabrina Carpenter]

Aye, done everything and done it again
Not everybody needs our attendance[Pre-Chorus: Sabrina Carpenter]

Don't take this as complaining

Just little rearrangements

Of the mess that we've been taking

Baby, we could take one off[Chorus: Sabrina Carpenter]

Body in companion, body in a mansion

But I like where my hands is, I just wanna hold tight

Wanna step over, we don't gotta slow down

Not like we don't know how, I just wanna hold tight

Ah, I just wanna, I just wanna hold tight

Wanna step over, we don't gotta slow down

Not like we don't know how, I just wanna hold tight

[Verse 2: Sabrina Carpenter]

Not like I wanna keep you inside, yeah

But I was hoping we could switch up how we're spending our time[Pre-Chorus: Sabrina Carpenter]

Don't take this as complaining

Just little rearrangements

Of the mess that we've been taking

Baby, we could take one off[Chorus: Sabrina Carpenter]

Body in companion, body in a mansion

But I like where my hands is, I just wanna hold tight

Wanna step over, we don't gotta slow down

Not like we don't know how, I just wanna hold tight

Ah, I just wanna, I just wanna hold tight

Wanna step over, we don't gotta slow down

Not like we don't know how, I just wanna hold tight

[Verse 3: UHMEER & Sabrina Carpenter]

I just want that hand hold, with the sweat in the middle

Running down, or when I feel alone and I'm feeling gone

You can touch it a lil', hit me underneath the covers

Coloring your body, reading braille

Take you to Bahamas, sleeping through the sun

Soaking on that silence, now I'm in the air

Telling you baby to listen, not just-

Wanna keep you in, wanna keep you in, babe

Wanna feel your skin, wanna feel it in right

Maybe I've been on the internet forgetting how to keep it slow

I know I need it really bad, boom body, clock, come and get it

I don't know I get it, get it, or I get it or-[Chorus: Sabrina Carpenter]

Body in companion, body in a mansion
But I like where my hands is, I just wanna hold tight
Wanna step over, we don't gotta slow down
Not like we don't know how, I just wanna hold tight
We can do it and do it
Ah, I just wanna, I just wanna hold tight
Wanna step over, we don't gotta slow down
Not like we don't know how, I just wanna hold tight
