

# Come On Come On

## Dave Matthews Band

There is a time for holding onto  
And there is a time for letting go  
You said "Come on let's go outside and then  
I'm gonna make you, I'm gonna make you Shoot straight into me baby  
Cupid's arrow into my heart Because of you girl, beautiful, beautiful girl  
Take it easy on yourself and make it easy on me  
'Cause I just wanna make you, I just wanna make you  
Come on, come on, come on, come As if the stars shine, just to reflect in your eyes  
As if the rain falls, to run down your cheeks to your smile  
Look at me like the sun and I'm flying  
You look away and I wanna jump out of my mind  
Shoot straight into me babe  
Cupid's arrow into you babe Because of you girl, beautiful, beautiful girl  
Take it easy on yourself  
Take it easy on me  
'Cause I just wanna make you, I just wanna make you  
Come on, come on, come on, come It's slow as we go  
Oh this great, great  
On this great, great love  
It shines  
It's great, great  
I just wanna love you  
I wanna love you  
I only want you  
'Cause of you girl, beautiful, beautiful girl  
Take it easy on yourself and take it easy on me  
'Cause I just wanna make you, I just wanna make you  
Come on, come on, come on, come  
Come on, come on, come on, come  
Come on, come on, come on, come
