## Don't Look Down

## **Martin Garrix & Usher**

Is your head spinning?

Is your heart racing?

Is there fire in your veins? Are your bones burning?

Is your skin yearning?

'Cause you're driving me insaneI kinda feel like I, feel like I saw the light

You got me way up, a thousand miles

Can we stay right here in this atmosphere

Like we're flying out in space?Don't look down

Up this high, we'll never hit the ground

Don't look down

See that sky, we're gonna reach it now

Do you feel the lightning inside of you?

Will you follow through if I fall for you?

Don't look down

Up this high, we'll never hit the groundAre your hands shaking?

Are your fears breaking?

Are you climbing over walls? Are the times changing?

Is the noise fading?

'Cause I wanna get it allI kinda feel like I, feel like I saw the light

You got me way up, a thousand miles

Can we stay right here in this atmosphere?

Or are you afraid to fall?Don't look down

Up this high, we'll never hit the ground

Don't look down

See that sky, we're gonna reach it now

Do you feel the lightning inside of you?

Will you follow through if I fall for you?

Don't look down

Up this high, we'll never hit the groundDon't look downDo you feel the lightning inside of you?

Will you follow through if I fall for you?

Don't look down

Up this high, we'll never hit the ground
