

On Our Own (feat. Culprate)

Modestep

We can do this on our own
No looking back, time to go
So we can do this somehow
We can do this on our own We can do this on our own We can do this on
We can do this on We can do this on
We can do this on
We can do this on
We can do this on We can do this on
We can do this on our own
We can do this on our own
No looking back, time to go
So we can do this somehow
We can do this on our own We can do this on our own
