Kiss Tomorrow Goodbye

Luke Bryan

All we do right is make love We both know now it ain't enough Ain't gonna beg you to stay God I ask you where's from Ain't no reason running for something is already gone Take up your leave in dress Let's do what we do best I guess everybody's got a way of moving on Girl rest your head one more time in my bed Love me like you loved me when you loved meAnd you didn't have to try Let's lay down tonight And kiss tomorrow goodbye Baby who we are just didn't work But maybe we can leave with something out of all this hurt Ain't gonna beg you to stay Ain't gonna ask you what's wrongAin't no reason running for something is already goneTake up your leave in dress Let's do what we do best I guess everybody's got a way of moving on Girl rest your head one more time in my bed Love me like you loved me when you loved me And you didn't have to try Let's lay down tonight And kiss tomorrow goodbye Ain't gonna beg you to stay Ain't gonna ask you what's wrong Ain't no reason running for something is already gone Take up your leave in dress Let's do what we do best I guess everybody's got a way of moving on Girl rest your head one more time in my bed Love me like you loved me when you loved me And you didn't have to try Let's lay down tonight And kiss tomorrow goodbye Let's kiss tomorrow goodbye.
