

Sadness Disease

Urban Cone

talking to myself in your mirror
she's gonna lose me now
You're gonna lose me now think about yourself, think about sundayshe's gonna lose me now
she's gonna lose me now
I've got this sadness disease
how you gonna cure me? look at what you've done, it's so simple I'm gonna lose you now
I'm gonna lose you now people are still alive and it's sunday you're gonna lose me now
you're gonna lose me now
I've got this sadness disease
how you gonna cure me? - x2
