

I'll Be Around

Empire of the Sun

When I was young
The feeling was there
It is still there
Unweaving in me As I recollect
Take me back to the stems of it
Through the eyes of my parents' tongues
How I listened to them So I made up my mind
I'll be around for a while
You can bet on your life
I'll be around for a while Call out my name, when you call I'll be there
I'm always running, chasing flames on a dare
Come back gimme light, come on darling shine
Call out my name, when you call I'll be there
So I made up my mind
I'll be around for a while
You can bet on your life
I'll be around for a while Time after time
This love tonight
It will be around for a while If wishes were horses then beggars would ride
Let your inner mystic unravel tonight
Harder than diamonds, we cut up the sky
Running like a river white hot with desire So I made up my mind
I'll be around for a while
You can bet on your life
I'll be around for a while Time after time
This love tonight
It will be around for a while
Really need to say, oh
Are you saying things have changed my ways again
Really need to say
(Really need to say) Girl I've prayed, oh
Prayed I'd meet someone like you someday
That's all I need to say
(That's all I need, that's all I need) So I made up my mind
I'll be around for a while
You can bet on your life
I'll be around for a while Time after time
This love tonight
It will be around for a while
