

I Don't Like It, I Love It

The Bellas

I don't like it I love it love it love it (ooh)
So good it hurts
Cuz I don't want it I gotta gotta have it (ooh)
I can't find the words to this love I don't like it no I love it
I don't like it no I love it All out turn the beat up
Hey now I'm glad to meet ya
Turn up girl blow the speakers
Yeah think about it now blow the speakers I Speak louder lets get wild tonight
Bring them bottles we just tell them right
Ain't no problem all my roles are right
All right all right
I don't like it I love it
Got another coming in my budget
Got another counter in my trust fit
Don't push it don't push it
Cuz I'ma hit it to the jack pot
That's right wack some baby wack some
I like it put in on the black card
All night I'll spend it I'll spend it Cuz I don't like it I love it love it love it (ooh)
So good it hurts
Cuz I don't want it I gotta gotta have it (ooh)
I can't find the words to this love I don't like it no I love it
I don't like it no I love it
All night let me groove ya
Dance with me turn down for who girl
Another running will step the moves up
Yeah get round me to measure a ruler
Celebrate life and no pay for it
And that body that nice to met up for it
And party all night lets all aboard it
Lets on the board on the board Cuz I don't like it I love it
And the other girls can't touch you
Competition that's a whole other subject
I wanna walk it out in public
You a star baby just know
Lets go to the mention of a candle
Lets go when we talk let it flow
You know I'm watching I'm watching I don't like it I love it love it love it (ooh)
So good it hurts
Cuz I don't want it I gotta gotta have it (ooh)
I can't find the words so just know I don't like it no I love it
I don't like it no I love it Meet me at the studio

Figuring just like Ru-thio
To the bass let your booty go
I will not get inside it
Runaway for a few days
I think about love maybe tu shay
Tied up like a shoe lace I don't like it (oooh yeah)
Come on now Oh I love it yeah (oooh yeah)
I don't like it no I love it
I don't like it but I love it
I don't like it but I love it
Yeah
I don't like it but I love it
