

# See You Later

## Heatmiser

you got a choke chain  
made out of nightrain  
to keep your memory down  
in quicksand from the main man  
to gel everything out  
always out on a joyride  
lay it out from insides  
always at a dead stall  
from sticking pins into miniature men  
who can't feel it at all see you later  
see you later  
if i see you at all  
see you later  
see you later  
see you later  
if i see you at all  
see you later walk thru thick mud  
looking for new blood  
thinking i heard your name  
cruel imagination is still giving me pain  
just to find you with the  
masterminder  
of one of your little affairs  
saying how he loves you now  
let me show you how much i care see you later  
see you later  
if i see you at all  
see you later  
see you later  
if i see you at all see you later  
see you later  
if i see you at all  
see you later
