What Cha' Gonna Do for Me (with Rufus)

Chaka Khan

All night and day Just chippin' away It's all in a day's work Tryin' hard to defend The time that I spend aloneThe TIME that you lose Exploiting the blues Won't get the job done As hard as it bites I'm keepin' my sights on you **CHORUS:** What cha' gonna do for me What cha' gonna do for me What cha' gonna do for me When the chips are downIn the cool of the night When nothing seems right The feeling can take you Strange as it seems You make your own dreams come trueIf you try to conceal The way that you feel You're asking for trouble Just as sure as I cry I'm keeping my eye on youCHORUS (2x) You don't have to tell me I'm to blame for this 'Cause what you hold against me Is what I miss
