

# Speakerbox (feat. Lafa Taylor)

## Bassnectar

When the little guns come  
And they wanna bust guns  
And they run when I come with that warrior song  
Got my back to the sun, when I rise  
I'm the one, chosen for the day proud  
I'm the warrior's son  
When the little guns come  
And they wanna bust guns  
And they run when I come with that warrior song  
Got my back to the sun, when I rise  
I'm the one, chosen for the day proud  
I'm the warrior's son  
We about to go...  
We about to go up  
We about to go...  
We about to go up  
Like up, like up, like up, like up-up-up-up-up-up...Like woo!Yeah we got it going up like  
thatMama said if they acting tough, fight back  
Yeah I had to rough 'em up like that  
Beat 'em 'till I see 'em, holdin' up white flag  
I be whipping ass, take 'em to class, who wanna go?  
I just hit the gas, I was too fast, ain't even know  
I was throwing jabs, you get a blow, you get a blow  
Knew they wouldn't last, leaving your ass right on the floorJust imagine killers in action, you  
ratchet  
All that smack shit, give them an accent [?]  
See they reaction, slaying dragons, what happened?  
I'm breaking fragments, they doing backflips, get backwards  
Bam  
When the little guns come  
And they wanna bust guns  
And they run when I come with that warrior song  
Got my back to the sun, when I rise  
I'm the one, chosen for the day proud  
I'm the warrior's son  
When the little guns comeAnd they wanna bust guns  
And they run when I come with that warrior song  
Got my back to the sun, when I rise  
I'm the one, chosen for the day proud  
I'm the warrior's son  
We can switch it up... we can... we can switch it up... Like...  
We can switch it up... Like... We can switch it... can switch... we can switch it...We can switch

it up... we can... we can switch it up... Like...  
We can switch it up... we can switch... can switch it... we can switch it...  
We can switch it... we-we-we can switch it... we can switch it... switch it... like...  
We can switch it up... we can switch... we can switch... we can switch...  
Up, up, up, up, up, up, up, up, up, up, up, up, up, up, up, up, up, up...  
I't about to go up, break 'em like internet  
Groupies wanna run up, we leave in the [?]  
You know how it go down, you know we into that  
Trust no one, guilty 'till proven innocent  
You just made me mad, I'm finna start spazzin'  
[?] true that, I feel that heat rising  
Throw your ass in the trash, I hate to be trifling  
But keep on playing these games you might just be lifeless  
Can't stop me, beast mode, I'm too cocky  
Leave 'em scared I bet he [?]  
Leave 'em dead right where he stand, do you copy?  
You understand you get these hands if you try me  
Speakerbox blast... Speaker-speakerbox blast... go  
Speakerbox blast go rat-tat-tat-tat!  
Speakerbox blast go rat-tat-tat-tat  
Laying back in the... back in the cut like that  
Speakerbox blast... Speaker-speakerbox blast... go  
Speakerbox blast go rat-tat-tat-tat!  
Speakerbox blast go rat-tat-tat-tat  
In fact we about to go up like...
