

Drink You Away

Trent Harmon

Bitter sweet thing.
Could this be a dream
Or just the same nightmare that keeps me awake?
Feel it in my brain.
A tall shot of pain.
Pour a little OUT now for the love that we've made.
I feel it in the morning.
You're still here in the morning.
I see you but you're gone
Telephone a doctor: I'm not okay.
The bottom of the bottle
To fill this empty heart up.
A thousand proof
Don't change the truth.
I dive in but I can't.
I can't drink you away.
I've tried Jack, I've tried Jim
I've tried all of their friends.
But I can't drink you away.
All these rocks
I can't swim
Out of this skin
I'm living in.
Say

Now tell me, baby, don't they make a medicine for heart break, ooh?
Tell me, baby, oh, yeah, now don't they make a medicine for heart break?

Got a pounding on my brain.

So I drowned it away.

When the sun comes up tomorrow you can find me doing the same.

'Cause I just can't forget

The way we turned out this bad/bed.

And now the only thing that sleeps here is a ghost of you instead.

And then I feel it in the morning.

You're still here in the morning.

I see you but you're gone.

Telephone a doctor: I'm not okay.

Bottom of the bottle

To fill this empty heart up.

A thousand proof

Don't change the truth.

I dive in but I can't.

I can't drink you away.

I've tried Jack, I've tried Jim
I've tried all of their friends.
But I can't drink you away (no, I can't).
All these rocks
I can't swim
Out of this skin
I'm living in.
Say
Tell me, baby, don't they make a medicine for heart break?
Oh, tell me, baby, one time, come on, don't they make a medicine for heart break?
Break it down
I can't drink you. No, I can't drink you away, away.
I can't drink you. I can't drink you away, away.
I can't drink you. I can't drink you away, away.
Oh, I can't drink you. No, I can't drink you away, away.
I can't drink you away.
I've tried Jack, I've tried Jim
I've tried all of their friends.
But I can't drink you away.
All these rocks
I can't swim
Out of this skin
I'm living in.
Say
So tell me, baby, don't they make a medicine for heart break (don't they, don't
they, tell me, baby)?
Oh, tell me baby, one time, don't they make a medicine for heart break, yeah?
Tell me, baby, can't they make a medicine for my heart break, heart break?
Tell me, baby, yeah, can't they make a medicine for my heart break?
'Cause I can't drink you away.
I've tried Jack, I've tried Jim
I've tried all of their friends.
I can't drink you away.
All these rocks
I can't swim
Out of this skin
I'm living in.
