

Nowhere (feat. Frances Lawson)

Mirror

Nowhere is a place I go
Where no one has a face I know
Then I don't feel so... bad
We were born to be sad, we were born to be sad Sometimes in life you have to feel the pain
But still your life shouldn't be so afraid
And everyone needs somewhere else to go
And everyone needs someone else to know So we cry... we were born to be sad, we were born
to be sad Nowhere is a place I go
Where no one has a face I know
Then I don't feel so... bad
We were born to be sad, we were born to be sad Sometimes in life you have to feel the pain
But still your life shouldn't be so afraid
If no one has a paradise
No one has a paradise
(And we are sad)... we were born to be sad, we were born to be sad
