

Follow Me

Serenity

That can't be a loss of time
I won't wait and see
The truth is just hiding
Bigotry hungry for power
But I will say no
Never lose my hope Investigate, secrets revealed
My book of life's full of holes Here I am, here I stand
Nothing left to say
My destiny will stay with me in sorrow
Here I am, here I stand
Redemption for my sins
Sign of the cross can't halt my way
Follow me
Rise up to a different sky
Leave the past behind
Aim for a future
Generation has been devoured
I won't fight alone
A silent leading flame Working and praying not to obey
Creating a sentence for souls Here I am, here I stand
Nothing left to say
My destiny will stay with me in sorrow
Here I am, here I stand
Redemption for my sins
Sign of the cross can't halt my way
Follow me Investigate, secrets revealed
My book of life's full of holes
Here I am, here I stand
Nothing left to say
My destiny will stay with me in sorrow
Here I am, here I stand
Redemption for my sins
Sign of the cross can't halt my way
Follow me
