

# Somebody Like You

Max Elto

And I found trust  
Oh, I know, very much  
Oh, I found it now  
With somebody like you Oh, and I found comfort  
Oh, I took what I deserve  
I took something new  
With somebody like you And I don't even mind them asking  
About someone just like you  
And I don't even mind them asking  
Cause I know that it's true  
Somebody like you  
Somebody true  
Somebody like you  
Somebody new  
Can you feel it? Somebody like you  
Somebody true  
Somebody like you  
Somebody new  
Can you feel it? So tough in luck, too bad it's over  
The story of me and you  
In the end, it was all worth it  
With somebody like you And I don't even mind them asking  
About the time that I spent with you  
And I don't even mind them asking  
Cause I know it's true  
Somebody like you  
Somebody true  
Somebody like you  
Somebody new  
Can you feel it? Somebody like you  
Somebody true  
Somebody like you  
Somebody new  
Can you feel it? Eyes open wide  
I see it now for the first time  
Stay in my life  
Cause I see you now for the first time Eyes open wide  
I see it now for the first time  
Stay in my life  
Cause I see you now for the first time Somebody like you  
Somebody true  
Somebody like you

Somebody new  
Can you feel it? Somebody like...  
Someone like you, you, you
