

Fall into You

Cosmic Gate & JES

What is life?
Without you in it I wish I was that strong
Without a reason to go on How does this work?
If you're not here with me You say we don't belong
And you're better off alone But you got me running, running, running so wild
Looking for a way to make it down that winding road
Cause I could fall into you
I'm gonna fall into you
In the still of the night
Take the thorn from my side I'm gonna fall into you
Just fall into light
Under the midnight sky
I'm gonna close my eyes
And just fall into you And just fall into you
And just fall into you
And just fall into you Cause I could fall into you
I'm gonna fall into you
In the still of the night
Take the thorn from my side
I'm gonna fall into you
Just fall into light
Under the midnight sky
I'm gonna close my eyes
And just fall into you
