

Graduation

Gemini

Time goes on and on, I told you the moment all day long
Time goes on and on, you're so strong so wrong
Time goes on and on, I told you the moment all day long
Time goes on and on, you're so strong so wrong.No one, no one here
Follow, follow fear
I am, I am here
Follow, follow fearSo long since I've been standing here
From the moment I met you it became so clear
I told you the moment the future is near
You're so strong so wrong
Time goes on and on.
No one, no one here
Follow, follow fear
No one, no one here
Follow, follow fear
