

Find Someone

Sheppard

Baby, I could go a little bit crazy
If the talk is true and you have played me
A side of me you don't wanna see
Maybe you just got a little bit lazy
But you've been acting unfamiliar lately
And given me a reason to leave
So now I'll find someone who really gives a fuck about me
Someone who really gives a fuck about me
Someone who really gives a fuck about me
Lately I've been getting awfully aggravated
When everything you say is fabricated
There's nothing keeping me from the door
Baby ahhh this is getting awfully complicated
Well everything you've done I've tolerated
But I draw the line at being a whore
So now I'll find someone who really gives a fuck about me
Someone who really gives a fuck about me
Someone who really gives a fuck about me
You know that every word you say is crazy
I can see it in your eyes through you thin veil disguise you think you're better than me
But there's never been a time when you've ever compromised
So I'm leaving this town
So I'll see you around
I'll find someone who really gives a fuck about me
Someone who really gives a fuck about me
Someone who really gives a fuck about me
So now I'll find someone who really gives a fuck about me
Someone who really gives a fuck about me
Someone who really gives a fuck about me
Find someone who really gives a fuck about me
Someone who really gives a fuck about me
Someone who really gives a fuck about me
