

More Than Friends

Dalvin Degrate

You know it's funny
It's like the girl that you really
Least expect to end up with
The one that you really kinda overlook
Is like the girl you gon' end up with
Ya know what I'm sayin'? It's funny man, ya know what I mean?
All these years I been seein', honey
Hangin' out with her
I never thought I'd end up with her
I never thought I'd have feelings for her
Ya know what I mean?
Heh, Stevie, let's tell 'em
Can't you understand, I wanna be more than friends
So baby, don't pretend that we can't fall in love
Promise I'll satisfy each and every night
Believe I want to love you girl All your girls used to come and hang around
Even though I played a few, that ain't how I get down
All my life I wished my dream came true
Dreams of fallin' in love, I think I'm feelin' you Can't you understand, I wanna be more than
friends
So baby, don't pretend that we can't fall in love
Promise I'll satisfy each and every night
Believe I want to love you girl Wonder why I sent you roses on Saturday night
I was home thinkin' havin' some wine, feelin' fine
And Cupid came along and sat down by my side
That's when I realized I need you in my life
Oh girl
Can't you understand, I wanna be more than friends
So baby, don't pretend that we can't fall in love
Promise I'll satisfy each and every night
Believe I want to love you girl Can't you see, I waited patiently until you came around
And now I found that one for me, ooh baby Got me kickin' and movin' all around
Got me kickin' and movin' all around
Got me kickin' and movin' all around
Got me kickin' and movin' all around Can't you understand, I wanna be more than friends
So baby, don't pretend that we can't fall in love
Promise I'll satisfy each and every night
Believe I want to love you girl Can't you understand
Baby, don't pretend that we can't fall in love
Each and every night
Believe I want to love you girl So now you see where I'm comin' from baby?
Hopin' you, uh, just wanna love you love

Every day, in the morning, late at night baby
Uh, yeah, uh, yeah, yeahEarly in the morning
In the middle of the day, baby
Late at night sugar, ooh wee yeah
Satisfy my baby, uhI want to love you girl
Can't you understand, I wanna be more than friends
So baby, don't pretend that we can't fall in love
Promise I'll satisfy each and every night
Believe I want to love you girl
