

# Rewind (Demo)

## Paramore

Don't come looking for me  
Cause I'll be right here with the words you said  
I'm looking for the words to say  
You know what you did you know  
And how can anybody  
Forget the promise that you made?  
Well this is how a promise breaks  
Always knew you'd fall through  
And now you'll prove And rewind to the first time  
That I felt it coming  
I knew it would not last  
And rewind to the first time  
That I felt it coming  
Make it quick, make it painless  
Don't tell me lies, just say goodbye  
And now you're running from me  
So cool, so scared  
Of what you might have said  
But no ones ever looked away  
Cause we know what you did, we know  
If I told anybody  
That we would soon forget your name  
You would never have a place  
I always knew you'd fall through  
And now you'll prove And rewind to the first time  
That I felt it coming  
I knew it would not last  
And rewind to the first time  
That I felt it coming  
Make it quick, make it painless  
Don't tell me lies, just say goodbye  
Please don't say too much ohhh

I think we've heard enough from you ohhh And rewind to the first time

That I felt it coming  
I knew it would not last  
And rewind to the first time  
That I felt it coming  
Make it quick, make it painless  
Don't tell me lies, just say goodbye  
Don't tell me lies, just say goodbye
