

My Religion

[Dierks Bentley](#)

I fell in love on the L train
Headed somewhere north of where you are
Thought I knew where I was going
But now I know I'm going where you are Ain't gonna lie I've been drinking
That Colorado's got me stoned
And every time I close my eyes
The angels are singing
Loving you ain't my decision
Loving you is my religion
I wanna heal what's been hurtin'
I carved that on a bench in central park
And when I showed up there the next day
You'd written your initials in a heart Ain't gonna lie I've been drinking
That Colorado's got me stoned
And every time I close my eyes
The angels are singing
Loving you ain't my decision
Loving you is my religion I'm in love out in LA
Paris, Tokyo, coast to coast
And it's you that keeps me going
Love from you will always mean the most
Ain't gonna lie I've been drinking
That Colorado's got me stoned
And every time I close my eyes
The angels are singing
Loving you ain't my decision
Loving you is my religion
