## **Altered State**

## **Sepultura**

Fear in my subconscious Terror invades my speech Faith in my own words No one knows the namelessWarm winds and burning tears Spirits outside bodiesEndless repression by majority A master without command Strange new dimension disturbing my brain Censored ideas, counterfeit answersShining blast, no perception Altered state, no reaction Shining blast Altered state Slow talk, fast thoughts Ancient scriptures Controversial lines Knowledge changes Running in the wrong direction Crossing with blind eyes I'm closer to myself Sanity can't invade
