

# Please Don't Turn Me On (feat. Lifford)

## Artful Dodger

Mmm-hmm  
I mean it (I mean it)  
Don't say it, babe (don't say it, babe)  
Hear me now now  
Said ah, please don't turn me on  
No, no listen, listen  
Baby, won't you keep your distance  
You're getting too close to me  
I've been feeling my resistance  
Melting away  
But she said she wouldn't mind  
If I spent a little time  
Said you were a friend of mine  
She could trust me out of sight  
Now two bottles later on  
And I think I stayed too long  
I forget where I belong  
Saying please don't turn me on It's getting late I know I should be gone  
Don't push me 'cos I'm not that strong (no, no, no, no)  
You can never make it right from wrong (no, no, no, no)  
Please don't touch me there  
Stop playing with my mind it's not fair  
When you know I've got another who cares  
And she's waiting for me somewhere out there, yeah  
Don't say my love is too familiar (aaww)  
'Cos she's everything to me  
Don't say what she don't know won't kill her (ooh)  
I'm playing away  
Put your hands where I can see  
Baby, you know what I mean  
'Cos you're looking good to me  
And you know I feel the heat  
As you button up your dress  
And I wake up in your bed  
With a head full of regrets  
Saying please don't turn me on It's getting late I know I should be gone  
Don't push me 'cos I'm not that strong (no, no, no, no)  
You can never make it right from wrong (no, no, no, no)  
Please don't touch me there  
Stop playing with my mind it's not fair  
When you know I've got another who cares  
And she's waiting for me somewhere out there, yeah Don't want to lose the love I have

'Cos once it's gone can't take it back  
You know that I want to  
Don't matter what I hear you say  
I see the look that's in your eyes (no, no)  
Please don't turn me on It's getting late I know I should be gone (I should be gone)  
Don't push me 'cos I'm not (I'm not) that strong  
(I'm not that strong, baby)  
You can never make it right from wrong (and oh)  
Please don't touch me there  
Stop playing with my mind it's not fair (oh no)  
When you know I've got another who cares  
(She cares about me)  
And she's waiting for me (and she loves me)  
Somewhere out there (and she needs me) Please don't turn me on  
It's getting late I know I should be gone  
(You know I should be gone)  
Don't push me 'cos I'm not that strong  
(I'm not that strong)  
You can never make it right from wrong (from wrong)  
Please don't touch me there (touch me there)  
Stop playing with my mind it's not fair
