

Love Like This

Faith Evans

I never knew there was a
Love like this before
Never had someone to show me a love
Love like this before Now that we have come to be
A brand new life I can see
Never thought that you'd be a special part of me
No baby
The reasons are because of you
I can go on and make it through
I can't even take my mind off loving you
And I wanna say
I know you can't see
All the things you mean to me
I'm so amazed that you are mine
Yeah yeah yeah yeah
If we can work together
Maybe this can last forever
This is something that I want to hold onto Baby try to understand
I'll be crazy if you leave
Cuz you compliment my style
And I like the way you walk
And the sexy things you talk
You don't know just what you do to me
You see I never
Baby try to understand
I'll be crazy if you leave
Cuz you compliment my style
And I like the way you walk
And the sexy things you talk
You don't know just what you do to me
You see I never Never knew a
Never knew a
Never knew a
Never knew a love like this before Never knew a
Never knew a
Never knew a
