

Black White

Asian Dub Foundation

G and D here has united
Black and white here to show you how we've been delighted
The new generation since the mid nineties
Showing you how it's done if you think you are a smartie Telling you the truth since we spotted
each other
We'd like to big up our elder sister and brother
'Cos they are the legends and they are like no other
Trained by the greater legend, mother and father G and D here has united
Black and white here to show you how we've been delighted
The new generation since the mid nineties
Showing you how it's done if you think you are a smartie Telling you the truth since we spotted
each other
We'd like to big up our elder sister and brother
'Cos they are the legends and they are like no other
Trained by the greater legend
Now we think jump up jump up lyrics are alright
But we'd like to broadcast a subject we know is not right
Look at us but don't look at us in disgust
'Cos you know the reality and it's time to adjust Think to yourself, don't be foolish about it
Fix up your brain or you'll be the target
A black man and a white woman living together
Face the facts, all fascist perpetrators Black or white here is united And as the world is getting
smaller and smaller
Then we can only get closer and closer
Building this community of sound
Celebratin' the unity we've found And we know this is the model to follow
For all the Dubs children of tomorrow
As they grow under shifting skies
We'll see every nation in their eyes
And as the world is getting smaller and smaller
Then we can only be getting closer and closer
Building this community of original sound
And celebrating the unity that we've found And we know this is the model to follow
For all the Dub children tomorrow
As they grow under ever shifting skies
We'll see every nation in their eyes Black or white here has united
We're here to show you how we've been delighted
Black or white here has united
Building this community of sound Yes, yes
