

That's Not True (feat. Damian "Jr. Gong" Marley)

Skip Marley

Now greetings to the world
Voice to the one called Skip Marley
Alongside the lion in the jungle
Big Gongzilla, the youngest son I know you drunk in power brother that's not juice
I see you chasing Mil's my brother that's no food
When the banana peels, I tell you that's not fruit
Another brother shot down, but that's not news Don't you fall from grace
Brother don't throw it all away
A wise man used to say
Money ain't life so take it easy Tell me that's not true
Tell me that's not true
Tell me that's not true
Tell me that's not true
You're lying with the liars, baby that's not you
The way you're never smiling, baby that's not cute
I see he got you crying, baby that's not smooth
The chaos and the violence, baby that's not cool Don't you fall from grace (No way)
My love don't give your heart away (No way)
A wise man used to say
If she's amazing she won't be easy Tell me that's not true
Tell me that's not true
Tell me that's not true
Tell me that's not true Tell me that's not true
Tell me that's not true
Tell me that's not true
Tell me that's not true
Better you build a bridge then instead of you build a wall
Better to love and lost and to never have loved at all
Better to do today then instead of you putting it off
Tomorrow not sure and that is for sure so better you give it you all
Better you stand up and better you get up and rise whenever you fall
Better you smile instead of you cry and even better you laugh
And my rasta...
Anything better than hungry, wisdom better than smart
Better dem go, but that one let them talk 'cause I bet when you check 'em them soft
All of them windin' up like a blue boy I bet when you jacket come off
Real is better than fraud
Freedom better than bought
Gold is better than bronze
Bronze is better than brass

Health is better than wealth
Peace is better than war
Now is better than earlier time
The present is better than past
Revenge undercut pure one
Long life better than fast
Question better than answer
Better you answer, just tell me yours
Tell me that's not true
Tell me that's not true
Tell me that's not true
