

Temptation

Co.Ro.

My temptation is coming from my heart
That skips a bit just like a game
Everytime you call my name, call my name It's only you
I want you too
It's only you
I want you too
Come Do you see what I mean talking 'bout fever
The fire burns inside of me
And you can quench me easily, so...
Let me hold you and squeeze you like a fool
Because I'm crazy about you
When you sit down and cross your legs, cross your legs
Temptation
Temptation...
Come You're sweeping away without a reason
Unless someone else is loving you
I'd want to have you by my side, by my side Temptation
Temptation... It's only you...
I want you too!
It's only you .
I want you too!
My temptation is coming from my heart
That skips a bit just like a game
Everytime you call my name, call my name Temptation
Temptation...
