[Hook:]

Say good bye to the bad guy
No fuckin' around, don't gotta ask why
I'll be here until they bury me and that's why
They know to run when they see me, I'm the motherfucka' hunting your dreamsI'm the
motherfuckin' bad guy

No fuckin' around, don't gotta ask why
I'll be here until they bury me and that's why
They no to run when they see me, I'm they motherfucka' hunting your dreams[Verse 2:]
Yeah! Yeah!

You can catch me where the wild things be at

Hit em' so quick they can't even react, even an Atheist would believe that

Fuck shootin' guns, I fire cannon balls

With a physical strength of a Neanderthal

Roar! I'm a Tyrannosaurus Rex

Start by beating up the verses and I'll slam the chorus next

Gotta stand-a for success and for me it's being the best

The games like a bench presser let me get it off my chest, I'm a vet

But I ain't checking on the healthiness of any K-9s

I'm giving you the news bitch, NBC dateline

Hear me through the grapevine, murdering tracks
Leave you laying in the bed where they do surgeries at
I been the hottest dude under the sun
Beating me? You got a better chance fucking a nun
Fuck it I'm done, got my competition on the run
Won't be happy till I'm number one, deadly with the tongue
Rap bandito doing coke by the kilo
The mad super villain is back... Magneto
So bow down to me or get eaten like sushi
So fuck you and have a great day... yours truly
[Hook:]

Say good bye to the bad guy
No fuckin' around, don't gotta ask why
I'll be here until they bury me and that's why
They know to run when they see me, I'm the motherfucka' hunting your dreamsI'm the
motherfuckin' bad guy

No fuckin' around, don't gotta ask why
I'll be here until they bury me and that's why
They no to run when they see me, I'm they motherfucka' hunting your dreams.
