

Everything About You

One Direction

You know I've always got your back girl
So let me be the one you come running to, running to, r-r-running
I see it's just a matter of fact, girl
You just call my name
I'll be coming through, coming through, I'll keep coming On the other side of the world
I'll be there in two, I'll be there in two, I'll be there in two
I still feel it everytime
It's just something that you do
Now ask me why I want to It's everything about you, you, you
Everything that you do, do do
From the way that we touch, baby
To the way that you kiss on me
It's everything about you, you, you (It's everything about you)
The way you make it feel, new, new, new
Like everybody, it's just us too
And there's nothing I could point to It's everything about you, you, you (Everything about you)
Everything about you, you, you (Everything about you)
It's everything that you do, do do (Everything about you)
It's everything about you Yes, I like the way you smile with your eyes
Other guys see it but don't realize that it's m-my loving
There's something about your laugh that it makes me want to have to
There's nothing funny so we laugh at n-n-nothing Every minute's like the last so let's just take it
real slow
Forget about the clock that's tick-tick-ticking
I still feel it everytime
It's just something I have to do
Now ask me why I want to
It's everything about you, you, you
Everything that you do, do do
From the way that we touch, baby
To the way that you kiss on me It's everything about you, you, you (It's everything about you)
The way you make it feel, new, new, new
Like everybody, it's just us too
And there's nothing I could point to It's everything about you, you, you (Everything about you)
Everything about you, you, you (Everything about you)
It's everything that you do, do do (Everything about you)
It's everything about you And you have always been the only one I wanted
And I wanted you to know without you I can't face it All we wanna have is fun
But they say that we're too young
Let them say what they want It's everything about you, you, you
Everything that you do, do do
From the way that we touch, baby

To the way that you kiss on me It's everything about you, you, you (It's everything about you)
It's everything that you do, do do
Like everybody, it's just us too
And there's nothing I could point to It's everything about you, you, you (Everything about you)
Everything about you, you, you (Everything about you)
It's everything that you do, do do (Everything about you)
It's everything about you
