Everything About You

One Direction

You know I've always got your back girl So let me be the one you come running to, running to, r-r-running

I see it's just a matter of fact, girl

You just call my name

I'll be coming through, coming through, I'll keep comingOn the other side of the world
I'll be there in two, I'll be there in two

I still feel it everytime

It's just something that you do

Now ask me why I want toIt's everything about you, you, you

Everything that you do, do do

From the way that we touch, baby

To the way that you kiss on me

It's everything about you, you, you (It's everything about you)

The way you make it feel, new, new, new

Like everybody, it's just us too

And there's nothing I could point toIt's everything about you, you, you (Everything about you)

Everything about you, you, you (Everything about you)

It's everything that you do, do do (Everything about you)

It's everything about youYes, I like the way you smile with your eyes

Other guys see it but don't realize that it's m-my loving

There's something about your laugh that it makes me want to have to

There's nothing funny so we laugh at n-n-nothingEvery minute's like the last so let's just take it real slow

Forget about the clock that's tick-tick-ticking

I still feel it everytime

It's just something I have to do

Now ask me why I want to

It's everything about you, you, you

Everything that you do, do do

From the way that we touch, baby

To the way that you kiss on meIt's everything about you, you, you (It's everything about you)

The way you make it feel, new, new, new

Like everybody, it's just us too

And there's nothing I could point toIt's everything about you, you, you (Everything about you)

Everything about you, you, you (Everything about you)

It's everything that you do, do do (Everything about you)

It's everything about youAnd you have always been the only one I wanted

And I wanted you to know without you I can't face it All we wanna have is fun

But they say that we're too young

Let them say what they wantIt's everything about you, you, you

Everything that you do, do do

From the way that we touch, baby

To the way that you kiss on meIt's everything about you, you, you (It's everything about you)

It's everything that you do, do do

Like everybody, it's just us too

And there's nothing I could point toIt's everything about you, you, you (Everything about you)

Everything about you, you, you (Everything about you)

It's everything that you do, do do (Everything about you)

It's everything about you
