

Bonfire

Third Eye Blind

A little early in spring
A bonfire ring?, she's shivering alone
?I bumped into you somehow You can wear, my duct-taped vest
It's my party best, ?it's really all I own?
Everything's changing now? And I am high like a star that's flying?
Cassiopeia?
Everything's changing now?? She said it's alright?
No, don't die alone
There's no goodbyes
Lightening comes and lightening goes
And it's all the same to me
?Let it in?
But then I want you so
?I can hardly breathe, or release?
Into one thousand pieces
?I have broke into?, over you?
Night shade will soon be gone
?I keep burning on If nothing else I am myself
That's all I have to give?
Everything's changing now?? And we could live like kings if we take a risk
Or we could live in doubt?
Everything's changing now
Oh now, come on, come on??
Lightening comes and lightening goes?
And it's all the same to me
?Let it in
Cause I want you so
?I can hardly breathe, or release
Into one thousand pieces
?I have broke into?, over you?
Night shade will soon be gone
I keep burning on and on and on?? This, this is, this is the last time
And this, this is, this is your goodbye
?And this, this is, this is the last time
?And this, this is, this is your goodbye?? Some girls will break you down?
Just to see you come undone?
Everything's changing now?? Maybe you and I are cursed?
Or maybe you and I are one
?And that's the universe?
Spin round, keep changing Lightening comes and lightening goes?
And it's all the same to me
?Let it in

Cause I want you so
?I can hardly breathe, or release
Into one thousand pieces
?I have broke into?, over you?
Snuff the flames at dawn
I keep burning on and on and on??
