

# Do You Love Me Still?

## The Kooks

I have thought that you have come back lately  
To take my soul away from me  
'Cause when I see you, you rip my heart out  
But all the same, you're not to blame  
Baby, baby, I love you still  
But I need your heart beating  
next to my heart  
In love I am  
Yes, I need your heart beating next to my heart  
In love I am  
Do you remember how I met you, child?  
I was down and I fell for you completely  
When I wanted your heart and  
You didn't want me, now you did, but now you did  
I need your heart beating next to my heart  
In love I am  
Yes, I need your heart dancing next to my heart  
In love I am  
Baby, do you love me still?  
'Cause I miss you, I miss you  
Baby, I miss you
