Carnival (feat. Anthony Hamilton)

Gorillaz

CarnivalWe play to win, just to find the dark Go home again, and we both fall out L-... I wanna spend the time with you Doing nothing Keep you satisfied, while they rob us blind I hear the music in the background Singing, singing Oh, I haven't see the glory Coming, coming coming And we play We play, we play, we play like a Just like a carnival Game (Just like a carnival) Laugh (Just like a carnival) Joke (Just like a-) Spinning me round and around and around Just like a carnivalWe play to win, just to find the dark Go... again, and we both fall out L-... I wanna spend the time with you Doing nothing We... (Just like a carnival) We laughed (Just like a carnival) Sleep with the dead (Just like a carnival) Playing with your mind (Just like a-) Spinning me round and around and around Just like a carnival, yeah
