

# Hide

FKA twigs

Space  
The only thing I ever knew Place  
With the time I know I'll have to choose, no Stay beneath the ground  
Hide away from you  
I sink into the crowd  
If it meant that I'd escape alright Hate  
The only thing I give to you  
Now Face me  
If you think you can take another route  
Out I let my sight be slayed  
If it meant that I could form a view  
I found another way  
To caress my day
