

Christmas Time

Cider Sky

Ooh ooh ooh ooh ooh ooh ooh ooh ooh ooh Hey, say if your frozen
You can always come to me
I, will take your hands in mine
I can warm them easily Winter snow, gets so cold.
But you can always come home
You can always come home Real lights up the chimney tops
And there's a fire that's warm and I will be waiting
Got my heart it's all wrapped up
You put your hand in mine and it feels like
Christmas Time
Christmas Time
Christmas Time Time, if I could stop it
Then it would always be like this
Always together
Under the mistletoe I kiss Winter snow, gets so cold
But you can always come home
You can always come home
You know I love you in my heart
I say it every day
It's Christmas Time, the sleigh bells ringing like it's on its way
You know I love you in my heart
I say it every day Winter snow, gets so cold
But you can always come home
You can always come home
