

# Doin' Dirt

## Maroon 5

oh yeah  
Hey you  
Don't want to love you on the telephone You're hanging up and now I am all alone  
Baby you got me doing dirt, doing dirt, doing dirt  
And now I wanna find you but you're on the run  
My heart's exploding like a burning sun  
I know you like it when it hurts, when it hurts, when it hurts  
Hold me we're dancing in the dark of the night  
You're shining like a neon light  
I light you up, when I get inside  
So won't you touch me 'cause everybody's watching us now  
We're putting on a show for the crowd  
So turn it up baby make it loud  
Hey you  
Say that you're only having fun and then  
You call me up at 3am again  
Baby you got me doing dirt, doing dirt, doing dirt And now all that I got is just a microphone  
To let you know that I am all alone  
I know you like it when it hurts, when it hurts, when it hurts  
Hold me we're dancing in the dark of the night  
You're shining like a neon light  
I light you up, when I get inside So won't you touch me 'cause everybody's watching us now  
We're putting on a show for the crowd  
So turn it up baby make it loud  
So right now, I wanna leave with you right now  
I wanna be with you all night, get in the car and let's go  
Yeah let's take it home, let's take it home, let's take it home  
So right now, I wanna leave with you right now  
I wanna be with you all night, get in the car and let's go  
Yeah let's take it home, let's take it home, let's take it home  
Hold me we're dancing in the dark of the night  
You're shining like a neon light  
I light you up, when I get inside  
So won't you touch me? cause everybody's watching us now  
We're putting on a show for the crowd  
So turn it up baby make it loud
