

# Naked

Ava Max

Wrap me in designer sheets and trace along this frame  
Ask me why they used to say that trouble was my name  
I've been playin' a fool since I stepped into the game  
Tell me I'm like Heaven, take the good  
Lord's name in vain  
But when I play my cards, keep 'em close to my chest  
Never fall in love, everybody loses the bet  
But underneath, I just need to forget  
So come and get me undressed  
Well, you can take off all my clothes  
And never see me naked  
See me for real  
If you don't know my heart  
You're never gonna break it  
Babe, tell me if it's safe to bare my soul  
I wanna show you my deepest secrets  
I think I'm ready to be exposed  
I want you watching me  
When you can take off all my clothes  
And really see me naked  
See me for real  
If I let you leave the light on and I drop my guard  
Promise that you'll see me for my truth and not my scars  
But when I play my cards, keep 'em  
close to my chest  
Never fall in love, everybody loses the bet  
But underneath, I just need to forget  
So come and get me undressed  
Well, you can take off all my clothes  
And never see me naked  
See me for real  
If you don't know my heart  
You're never gonna break it  
Babe, tell me if it's safe to bare my soul  
I wanna show you my deepest secrets  
I think I'm ready to be exposed  
I want you watching me  
When you can take off all my clothes  
And really see me naked  
See me for real  
If I keep my distance, I can't connect with you  
Lay my head on your chest and just surrender  
Just surrender to you  
Well, you can take off all my clothes  
And never see me naked  
If you don't know my heart  
You're never gonna break it  
(Oh, ooh) Tell me if it's safe to bare my soul  
I wanna show you my deepest secrets

I think I'm ready to be exposed  
I want you watching me  
When you can take off all my clothes  
And really see me naked  
See me for real
