

Brightest Morning Star

Britney Spears

You are the light of my beautiful life
You are the light of my beautiful life You know I wake up and every day
I feel safe knowing that you got my back now and forever
Living my life coz I've got nothing to do
When a tear falls you put your hands out
You catch my tears
And I'm feeling so close to your love now
If I was lost now I can be found I lift my hands and pray 'cause life is tough somedays
But I will not lose faith 'cause you will lead the way You're my light when it gets dark
You're always in my heart
You're my brightest morning star
You're my light when it gets dark
You're always in my heart
You're my brightest morning star
You are the light of my beautiful life
I can never let go, you're my brightest morning star
You are the light of my beautiful life
I can never let go, you're my brightest morning star In your arms I, I feel alive, I am not afraid
I will keep you, listen closely
I look for signs everyday I lift my hands and pray 'cause life is tough somedays
But I will not lose faith 'cause you will lead the way You're my light when it gets dark
You're always in my heart
You're my brightest morning star
You're my light when it gets dark
You're always in my heart
You're my brightest morning star
You're my light when it gets dark
You're always in my heart
You're my brightest morning star
You're my light when it gets dark
You're always in my heart
You're my brightest morning star You are the light of my beautiful life
You are the light of my beautiful life
