

Wasabi

Little Mix

[Chorus: Jade]

Stick like toffee, sip like coffee
Wake up, change your mind and drop me
Love to hate me, crazy, shady
Spit me out like hot wasabi
Lick me up, I'm sweet and salty
Mix it up and down my body

Love to hate me, praise me, shame me

Either way, you talk about me [Verse 1: Jesy & All]

Oh-oh, I love the way you talk about me

Oh-oh, look at how far it got me

Oh-oh, the shit the papers write about me

Oh-oh, I fold it up like origami

Oh-oh, like, "She ain't wearing no clothes"

Oh-oh, "When she goin' solo?"

Oh-oh, "I bet they gonna break up"

Oh-oh, but what the hell do you know?

[Pre-Chorus: Leigh-Anne w/ All, Jesy Nelson]

Ooh, baby, ooh (Yes, you)

I can feel you hatin' on me

Ooh, baby, ooh (Yeah, you)

I'm glad to be your inspiration

Who, baby, who's (Guess who)

The topic of your conversation, I am (I am)

All the ugly things you say

Come and say 'em to my face [Chorus: Jade & All]

Stick like toffee, sip like coffee

Wake up, change your mind and drop me

Love to hate me, crazy, shady

Spit me out like hot wasabi

Lick me up, I'm sweet and salty

Mix it up and down my body

Love to hate me, praise me, shame me

Either way, you talk about me

[Verse 2: Perrie & All]

Oh-oh, watching me

Oh-oh, I ain't watching you (I'm watching you)

Oh-oh, what you see

Oh-oh, I hope you like the view (Check it out)

Oh-oh, best believe

Oh-oh, you'll never get into me

Oh-oh, all these words run through me (Oh-oh,) [Pre-Chorus: Leigh-Anne w/ All & Jesy]

Ooh, baby, ooh (Yes, you)
I can feel you hatin' on me
Ooh, baby, ooh (Yeah you)
I'm glad to be your inspiration
Who, baby, who's (Guess who)
The topic of your conversation, I am (I am)
All the ugly things you say
Come and say 'em to my face [Chorus: Perrie & Jade]
Stick like toffee, sip like coffee
Wake up, change your mind and drop me
Love to hate me, crazy, shady
Spit me out like hot wasabi
Lick me up, I'm sweet and salty
Mix it up and down my body
Love to hate me, praise me, shame me
Either way, you talk about me [Outro: Jesy]
You know I love the way you talk about me
Look at how far it got me
You make up shit to write about me
I fold it up like origami
Like, "She ain't wearing no clothes"
"When she goin' solo?"
"I bet they gonna break up"
But what the hell do you know? (Ah!)
