

# Long Way Home

## 5 Seconds of Summer

Take me back to the middle of nowhere  
Back to the place only you and I share  
Remember all the memories  
The fireflies and make believe Kicking back at the old school yard  
Singing songs on our guitars  
This is our reality  
Crazy stupid you and me We know this is the way it's supposed to be So we're taking the long  
way home  
(taking the long way home)  
'Cause I don't wanna be wasting my time alone  
I wanna get lost and drive forever with  
you talking about nothing, yeah whatever, baby  
So we're taking the long way home  
(taking the long way home)  
Tonight  
Taking the long way home  
(Taking the long way home)  
We're taking the long way home Now we're stuck in the middle of nowhere  
Yeah it only took our time to get there  
Hiding out in our dreams  
Catching fire like kerosene (kerosene) And you know I'd never let you down  
Till the sun comes up  
We can own this town  
Something like make believe  
Living in a movie scene Know this is the way it's supposed to be So we're taking the long way  
home (taking the long way home)  
'Cause I don't wanna be wasting my time alone (oh, no)  
I wanna get lost and drive forever with  
you talking about nothing, yeah whatever, baby  
So we're taking the long way home (taking the long way home)  
Hitting every red light  
Kissing at the stop signs, darling  
Green day's on the radio  
And everything is alright  
Now we're turning up the headlights, darling  
We're just taking it slow So we're taking the long way home  
'Cause I don't wanna be wasting my time alone  
I wanna get lost and drive forever with you talking about nothing, yeah whatever, baby  
So we're taking the long way home Hitting every red light (red light)  
Kissing at the stop signs, darling  
Green day's on the radio (ohh)  
And everything is alright

Now we're turning up the headlights, darling  
We're just taking it slow We're taking the long way home (ohh)  
We're taking the long way home (ohh)  
We're taking the long way home
