

# A New Level

## Pantera

Now a new look in my eyes my spirit rise  
Forget the past  
Present tense works and lasts  
Got shit on  
Pissed on  
Spit on  
Stepped on  
Fucked with  
Pointed at by lesser men  
New life in place of old life  
Unscarred by trials A new level of confidence and power Demanding plea for unity between us  
all  
United stand  
Death before divided fall  
In mock military order  
Vulgar  
Power  
Impatient  
Because time is shorter New life in place of old life  
Unscarred by trials  
A new level of confidence and power No fucking surrender  
Can't lose  
Life kills
