

# All It Takes for Your Dreams to Come True

## A Skylit Drive

The fire rages in me  
Never want to see the roses on your door  
The glass that separates our touch  
Soaring into the unknown skies fearing what we're fighting for  
This is a war we cannot win!  
Our last time to make stars collide right before our eyes  
Believe in everything, everything you've ever known  
Reciting words we lost, these years will never be untold  
I won't be alone  
The fire rages in me  
Daylight fights through the night with the cries of redemption  
The sun ignites the light in our eyes  
And this is possible?  
Our last time to make stars collide  
right before our eyes  
Believe in everything, everything you've ever known  
Reciting words we lost, these years will never be untold  
I won't be alone  
This time we fight  
Side by side you and I  
This time we fight  
Side by side you and I  
The bringers of light  
The teeth in the night  
The teeth in the night  
The bringers of light  
The teeth in the night  
I won't be alone
