

I Take It All

Pegasus

When I was a boy I used to say
That life is nothing but a race
And then I had to find a way
As long I stay in my place Every mountain
Will be climbed
'Till the valleys
Will be mine Some find a way
Some get washed away
I take it all
I take it all I will sing these Rhymes
'Till the end of time
I take it all
I take it all
Marchin' on with ghosts of my past
Beware, they want to take your place
Beyond the door there must be freedom
And we all, we all leave behind a trace On every pathway
Every street
The battlefields where
We compete Some find a way
Some get washed away
I take it all
I take it all I will sing these Rhymes
'Till the end of time
I take it all
I take it all
I'll take the setbacks
I'll take defeat
I'll take injustice of enemies i meet
But also Glory, and may it come
Let the world be my auditorium Some find a way
Some get washed away
I take it all
I take it all I will sing these Rhymes
'Till the end of time
I take it all
I take it all
