

# In the Middle

## Alesso & SUMR CAMP

You and I  
Said the words to each other before  
And it's hard To get what was said in the dark Somewhere in the middle  
In between the high  
We don't have to call it  
Let it go all night  
I know what you feeling  
I feel it too  
Somewhere in the middle I throw it back on you  
In the middle of you  
I throw it back on you  
In the middle of you  
We can talk  
You go back to the way that it was  
But I'd lie  
If you ask me if that's what I want Somewhere in the middle  
In between the high  
We don't have to call it  
Let it go all night  
I know what you feeling  
I feel it too  
Somewhere in the middle Somewhere in the middle  
In between the high  
We don't have to call it  
Let it go all night  
I know what you feeling  
I feel it too  
Somewhere in the middle  
I throw it back on you  
I'll be there for you Somewhere in the middle  
Somewhere in the middle  
I feel it too  
I feel it too
