

# Bend

## Chet Faker

Automatically, I feel there's something wrong  
I try to fix the pieces, tryina run from home  
Won't be seeing, not for long,  
It was nice to meet you all!  
Automatically, can't contain control. Don't be long before I'm dead up to hear,  
Try to make no sense of it all  
Take a sit down, and throw my head on my knees  
Got a kinky love, I'm sure she already knows.  
Girl I'm trying to make you BEND  
Looking for a, looking for a, looking for a sin  
Help me think of words I've said  
Looking for a, looking for a, looking for a sin Systematically, I see the problem go  
I try to fake the reason, try to let it go  
Hopefully I closed the door, smoke a cigarette alone  
Tired to watch the street and I'm on the phone Don't be long before I'm dead up to hear,  
Try to make no sense of it all  
Take a sit down, and throw my head on my knees  
Got a kinky love, I'm sure she already knows.  
Girl I'm trying, tryina make you BEND  
Know I'm looking for your sin, looking for your sin  
Help me think of words I've said.  
Girl I'm trying to make you BEND  
Looking for a, looking for a, looking for a sin  
Help me think of words I've said  
Looking for a, looking for a, looking for a sin You know I'm tryina make you BEND!
