

# Reverend

## Kings of Leon

On the limb cut down in the middle of the night caught in a trap  
Cursed by the crown of the wandering man who was never coming back  
Stuck on the line spinning all of his time with his back to the throne  
With the flash of the round everybody in town said leave me alone Just like a reverend, like a  
reverend on the radio  
Your heart will never say so  
Your heart will never let you go  
Just like a reverend, like a reverend on the radio  
My heart will never say so  
My heart will never let you go  
I got caught in the middle of a hurricane fight facing the ground  
Beast to the wild with the porcelain smile as it passes around  
The truth in the skies from the billowing eyes isn't working on me  
Don't you think you gotta give me  
Give me something I want  
Give me something I need Just like a reverend, like a reverend on the radio  
Your heart will never say so  
Your heart will never let you go  
Just like a reverend, like a reverend on the radio  
My heart will never say so  
My heart will never let you go  
Just like a reverend, like a reverend on the radio  
Your heart will never say so  
Your heart will never let you go  
Just like a reverend, like a reverend on the radio  
My heart will never say so  
My heart will never let you go Just like a reverend, like a reverend on the radio  
My heart will never say so  
My heart will never let you go
